

INITIATIVES - YOUR MEDICAL CARE JOINED TOGETHER

As part of your ongoing healthcare you have the choice to share your medical information. Sharing enables healthcare professionals faster and easier access to up to date medical information which could save your life. Here is how your medical information can be shared with your permission

| | Medical Interoperability Gateway (MIG) | Summary Care Record | GP Extraction Service (GPES) |
|---|---|--|--|
| Why share your medical information | Clinical Care  | Clinical Care  |  RESEARCH |
| Where your medical information will be shared | Local (I Heart Barnsley)  | National  | England  |
| Details of your medical information that will be shared | Diagnoses and problems Allergies Medications (current, past and issues) Current and past illnesses Procedures and investigations Blood pressure measurements Encounters, Admissions and Referrals | Medications, Allergies and Adverse reactions | Read coded information Medications and allergies Problems and Results Information effectively anonymised unless otherwise stated |
| Storage of your medical information | Real-time information (data is not extracted and stored elsewhere)  | Central database (data is extracted and stored elsewhere)  | Central database (data is extracted and stored elsewhere)  |
| How your medical information is accessed | Strict secure access for authorised staff with patients permission  | Strict secure access for authorised staff  | Effectively anonymised for research purposes unless otherwise stated  |
| How do I share my medical information | I Heart Barnsley will be able to view some of your medical information (as listed above) with your permission, when you make contact with the service. You will be asked for your explicit consent to view your medical record by the clinician you see | Every-one has summary care record unless you have chosen to opt out. You can choose to opt out of the scheme by completing a form and bringing it to the surgery. The form can also be obtained from the surgery | This GP extraction service (GPES) collects information from GP clinical systems in England and forms part of the Health and Social Care Information Centre's (HSCIC) GP Collections service. This GP surgery participates in this activity |
